

# Wire & Cable Protection

## water blocking

Info-Gel is our global manufacturer of high-quality filling gels that block water from entering sensitive cables.

Compatible with all types of buffer tube and fibre coating polymers, Info-Gel meets the exacting standards required by manufacturers.

With three production lines and two pilot plants dedicated to research and development located on three continents, Info-Gel delivers production flexibility and customer security of supply with a capacity exceeding 20,000 MT annually.

Whether mass produced or very specialized -- Info-Gel has a range of products that cover all needs.
